Professional Summary

Java Full Stack Developer and MCA graduate with hands-on experience in Core Java, Spring Boot, REST APIs, React.js, PostgreSQL, Hibernate/JPA, and Postman API testing. Completed a Software Developer Internship at Aloha Technology, working on healthcare application modules, SQL workflows, debugging, and backend functionality. Strong in OOP, database design, API development, and building full-stack CRUD applications.

Internships

Software Developer Intern, Aloha Technology Baner

02/2025 – 08/2025 | Pune

- Developed and maintained healthcare application modules using OOP principles, SQL workflows, and structured development practices across Purchase Plan, VA Billing Report, and Resident Behavior Checklist modules.
- Debugged application issues, performed root-cause analysis, improved data accuracy, and collaborated with team members to deliver reliable backend functionality within project timelines.

Education

Master of Computer Applications (MCA) | Computer Science

2023 – 2025 | 7.70 CGPA

MES IMCC Kothrud, Savitribai Phule Pune University

Bachelor of Computer Science (BCS) | Computer Science

2019 – 2022 | 8.89 CGPA

ASM CSIT Chinchwad, Savitribai Phule Pune University

Skills

Programming Languages — Core Java, JavaScript

Backend Technologies — Spring Boot, Spring Framework, REST APIs, Spring Data JPA, Hibernate ORM, JDBC, Maven

Frontend Technologies — React.js, HTML5, CSS3, JavaScript, Bootstrap

Databases — PostgreSQL, MySQL, Oracle SQL, SQL Queries

API Testing & Tools — Postman, Git, GitHub, VS Code, Eclipse IDE

Core Java Concepts — OOP, Collections Framework, Exception Handling, Multithreading Basics

Core Concepts — Data Structures, SDLC, Database Design, Debugging, CRUD Operations

Certificates

Best Front-End Developer of the Batch

Qspiders Wakad Feb 2026

Programming Hackathon

TopBrains & Qspiders Mar 2026

Projects

Employee CRUD Full Stack Application, React.js, Spring Boot, Spring Data JPA, REST APIs, PostgreSQL, Postman

Jun 2026

- Built a full-stack Employee CRUD application using React.js frontend, Spring Boot REST APIs, Spring Data JPA, and PostgreSQL to manage employee records with create, read, update, and delete operations.
- Tested backend APIs using Postman, integrated frontend with REST endpoints, and implemented structured database operations for reliable employee data management.

Bank Management System, Java, JDBC, Hibernate ORM, JPA, PostgreSQL, JPQL

Mar 2026 – Apr 2026

- Designed and implemented a backend banking application using Java, OOP, JDBC, Hibernate ORM, and JPA for account, transaction, and balance management.
- Created PostgreSQL database schemas and optimized data flow across JDBC and Hibernate layers to improve reliability, maintainability, and transaction handling.

Mithai Junction 🍪, HTML, CSS, JavaScript, GSAP, Locomotive Scroll

Dec 2025 – Feb 2026

- Developed a responsive web application using HTML, CSS, and JavaScript with LocalStorage-based client-side data management for persistent user interactions.

- Enhanced user experience using GSAP animations, Locomotive Scroll, and EmailJS integration for smooth UI interactions and contact functionality.

Portfolio Website , *React.js*

Feb 2026

- Built a responsive portfolio website using React.js component-based architecture to showcase projects, skills, certifications, and developer profile.
